

Mechanicsburg SUPPLIER

Vol. 4, No. 1

Mechanicsburg, Pa.

Jan. 7, 2000

CFC work cited...

Ruth Sanders, chair of the on-base Combined Federal Campaign Council, receives a citation from RADM Keith W. Lippert, the Commander of the Naval Supply Systems Command, honoring her contributions to this year's highly successful campaign for a wide variety of charitable agencies.

Dr. King breakfast reservations due

On Thursday, Jan. 13, the Mechanicsburg Defense Activities will host its annual Dr. Martin Luther King Jr. breakfast.

The guest speaker this year is Derrick L. Span, Director, Project for Community Building, Commonwealth of Pennsylvania.

The national theme this year is "Remember! Celebrate! Act - A Day On, Not A Day Off."

The breakfast will be held in the Hampton Room of the Commissioned Officers' Mess here on base from 8 to 9 a.m.

There are three breakfast choices. Choice #1 is bacon,

scrambled eggs, home fries, toast, coffee, and orange juice.

Choice #2 is fresh fruit, toast, and coffee or juice.

Choice #3 is Special K cereal, muffin, fruit, and coffee or juice.

The cost of the breakfast this year is \$6.50

If you are interested in attending, please contact Diane Stump, Workforce Diversity Department, Building 407, Bay C25, Ext. 3611.

Reservations and payment are needed no later than Jan. 10.

If paying by check, please make check payable to Navy Personnel Command.

Job seekers invited to look into using Pa.'s CareerLink web site, Career Resource Center

If you're researching job opportunities or going to be searching for a job down the road, here are some options you may want to make use of now or keep in mind for the future.

The Commonwealth of Pennsylvania has a web site that offers job seekers access to employment, training, and related resources online.

The web site is www.pacareerlink.state.pa.us.

Under its Job Seeker Services button, interested individuals can make use of a self-service Job Search System.

These services also are available at local Pennsylvania CareerLink offices such as those in downtown Harrisburg and Carlisle.

Whether you're a civilian, veteran, or military member who is planning for post-retirement work or a civilian employee looking into taking SIP/VERA and then starting a second career, these services are available to you.

Career Resource Center

Here on base, career planning and job search services continue to be available to many installation personnel at

the Career Resource Center in building 906 at the South Gate.

The center is operated by the Naval Inventory Control Point for employees who are covered by the Human Resources Office Mechanicsburg. Employees of the Defense Logistics Agency are covered for like services by personnel workers at their New Cumberland site.

The on-base center is staffed by installation employee volunteers who have been trained to provide employment-counseling services to interested employees. They

are also available to assist you in such areas as resume writing and interviewing techniques.

They can show you how to use the center's extensive data banks in accessing current job opportunities and requirements.

Recent upgrades allow more users to access the Internet at the center to check out job information.

The center is open Monday and Tuesday from 8 a.m. to 4 p.m. Wednesday hours are 6 a.m. to 4 p.m. Thursday hours

(Continued on Page 8)

Final decision reached in NALC A-76 study

The Naval Supply Systems Command announced Dec. 22 that the Navy will retain in house the Naval Ammunition Logistics Center functions at Mechanicsburg. This decision is the result of a competitive study conducted in accordance with the Office of Management and Budget Circular A-76.

The NALC provides ammunition logistics services and stockpile management information for Navy and Marine Corps customers in support of the national military strategy.

The NALC study included 132 positions. The government's Most Efficient Organization (MEO) reorganizes the work force into 68 positions. The decision to retain the operation in house was made after the A-76 process resulted in no bids from industry.

Career employees adversely affected by implementing the MEO will be given maximum assistance in continuing their federal careers through reassignment to other positions in the Department of Defense or other agencies. Those employees will also be assisted, in cooperation with the Department of Labor and State employment services, in locating positions in private industry or afforded opportunities to undertake retraining programs to qualify them for jobs available in local labor markets.

Medals presented...

CAPT Joseph S. Thornbury receives the Meritorious Service Medal (Gold Star in lieu of Fourth Award) from RADM Keith W. Lippert, the Commander of the Naval Supply Systems Command, in a recent ceremony. Thornbury was honored for his service as the Director, Reserve Division in the Office of the Director of Supply Corps Personnel, NAVSUP, Millington, Tenn., from May 1996 to July 1999. At top right, LCDR Douglas S. Borrebach receives the Meritorious Service Medal (Gold Star in lieu of Second Award) for his service as Supply Support and Logistics Readiness Analyst, Assessments Division on the Staff of the Deputy Chief of Naval Operations (Resource, Warfare, Requirements, and Assessments), Washington, D.C., from December 1996 to July 1999. Receiving

the Meritorious Service Medal for his service as Director, Nuclear Material Management Department, Naval Inventory Control Point, Mechanicsburg, from June 1996 to July 1999 was LCDR Brian L. Wenger.

Mentors called on to get into judging

It was dreary outside, and inside the Science Lab of the Rowland School in Harrisburg some mentors from the base who served as judges for the Harrisburg Math and Science Academy Science Fair were learning about the forces of nature that caused the rainy weather.

Employees from the Naval Supply Systems Command and Naval Inventory Control Point who participate in the NAVSUP Mentoring Program with students at the academy served as judges for the fair. Students in sixth through eighth grades entered their projects in the annual event.

The projects ranged from an explanation of desalination of salt water to the effects of global warming to the growth of

crystals.

Students were required to present their project to be judged on creative ability, scientific thought, skill, and clarity. Points were also given for project display, presentation and engineering.

Categories of projects included biochemistry, botany, and earth and space science. The winners will be announced in the near future.

Serving as judges were Lori Shenk, Peggy Hoffman, Bob Gaydosh, Kathy Adams, Vickie Zeis, CDR Bob Allen, and CDR Tim Stringer, all of NAVSUP, and John Rogers of the NAVICP.

Call Allen at Ext. 2152 or Shenk at Ext. 7271 for more info or to join the program.

What's SUP

Best wishes to departing ombudsman Betty Magaro, who has taken a new job in the Naval Inventory Control Point.

Bill Lavage has taken on ombudsman duties temporarily.

More than 244 pounds of food were donated by headquarters personnel to the Central Pennsylvania Food Bank in December in a collection taking place in conjunction with the NAVSUP holiday party.

Sympathy is extended to Jan Derk of the Public Affairs Office on a recent death in the family.

If you have news for this column, please send an e-mail to Barbara Pearce.

Wekluk honored for One-Touch efforts

Tom Wekluk of the Naval Supply Systems Command was recently recognized by the Association for Federal Information Resources Management (AFFIRM) for his work on the command's One-Touch Support System.

He received the group's Leadership Award at a Dec. 16 meeting in Washington, D.C.

The citation said Wekluk "... demonstrates outstanding technical and managerial innovation, as well as demonstrates the leverage of information technology to accomplish mission objectives."

The vision for One-Touch Support's objective is to provide customers with a single "One-Touch" point of entry for all supply-related business processes. One-Touch will include integration with the Readiness Support System, the Customer Information Center, Public Key Infrastructure, regional web sites established at each of the Fleet and Industrial Supply Centers, and the Automated Non-Standard Requisitioning System. It will also provide access to the Defense Reutilization and Marketing Organization, Force Inventory Management Analysis Reporting System, Naval Inventory Control Point and Defense Logistics Agency databases, and others.

The system provides links to the Naval Logistics Library and to Household Goods' online counseling, preparation of required move documentation and shipment status of privately owned vehicles. Basic supply and logistics functions

such as performing technical screening and feedback reports will also be available.

AFFIRM is a nonprofit, professional organization whose overall purpose is to improve the management of information, and related systems and resources, within the federal government. Members include information resource management professionals from federal, academic and industry sectors.

AFFIRM seeks to provide members with professional development opportunities by supporting IRM/IT education as well as networking opportunities to influence the development of IRM and IT policy in the federal arena.

Wekluk has 31 years of experience with the government. Before coming to SUP's Code 4253, he served in the Director of Defense Technology Office, Tokyo, Japan.

Wekluk

Aboard from NAVSEA...

Peter F. Brown, the Executive Director of the Naval Sea Systems Command, is welcomed to Naval Supply Systems Command by RADM Keith W. Lippert, the Commander of NAVSUP. Brown was aboard for a series of briefings.

NAVSUP OP Enlisted Road Show CY 2000 schedule set

The Naval Supply Systems Command's Enlisted Plans Branch of the Supply Corps Personnel Directorate (NAVSUP OP) has scheduled its annual OP Enlisted Road Show.

The Road Shows present topics, including advancement, retention, career planning, officer programs and retirements, for enlisted personnel in supply ratings.

Local Fleet and Industrial Supply Centers and regional commanders will provide specific times and locations for the presentations.

The year 2000 schedule:

8 JAN - 2 FEB - Pearl Harbor/WESTPAC/Italy

Pearl Harbor/Guam/Japan/Singapore/Bahrain/Diego Garcia/Sigonella/LaMaddalena

28 FEB - 4 MAR - GULF COAST

Corpus Christi/Ingleside/New Orleans/Pascagoula/

Pensacola

13-17 MAR - SOUTHEAST REGION

Jacksonville/Mayport/Kings Bay

27-31 MAR - SOUTHWEST REGION

San Diego

2-7 APR - NORTHWEST REGION

Seattle/Bremerton/Whidbey Island/Everett

7-12 MAY - NORTHEAST REGION

Earle/Groton/Newport/Brunswick/Bath

22-26 MAY - MID-ATLANTIC REGION

Norfolk/Little Creek/Oceana/Yorktown-Cheatham Annex

Questions concerning these presentations should be addressed to CDR Joe Spruill, SUP OP33, at DSN 224-6850 or at commercial (703) 614-6850 or via e-mail at N132D15@bupers.navy.mil.

Aviation Ordnance chapter issues invite

Anyone who supports the Aviation Ordnance community is invited to join the Keystone Chapter of the Association of Aviation Ordnance-ment, which meets monthly on base.

The association is the professional organization of the Navy and Marine Corps Aviation Ordnance community.

The Keystone Chapter was established in Mechanicsburg to promote the objectives of the association, which include improving communications and increasing cooperation

between Aviation Ordnance-ment and the personnel responsible for the design and procurement of weapons systems, components, associated hardware, and related handling and support equipment. The group also has community relations and fellowship objectives.

Contact John Titzel, Ext. 2149, for more information.

The chapter recently made a contribution of \$500 to the Children's Christmas Party. Taking part in a recent presentation to party representatives Mary Orse and Elsie Caldwell were CAPT A.A. Banghart, CO of NALC; Kathy Sheriff; LtCol. (Sel) Crabtree; Ken Leonard; Hand Rebinski; Ken Stewart; LCDR Taylor; and Titzel, Keystone Chapter President.

Naval Ammunition Logistics Center

Medal presented...

Marine GySgt. Martin T. Hughes receives the Navy and Marine Corps Achievement Medal from CAPT A.A. Banghart, the Commanding Officer of the Naval Logistics Ammunition Center, in a recent ceremony. Hughes was cited for efforts in coordinating the management of Navy and Marine Corps ordnance during Operation Noble Anvil/Allied Forge.

All along the NAVICP line

Farewell to LT Eric Bach as he departs Code 0243 for the USS *Harry S. Truman* (CVN 75).

Sympathy is extended to Wanda King of Weapons Systems on the death of her father.

If you have news for this column, please send it via e-mail to Barbara Pearce of the NAVSUP Public Affairs Office.

Sub straddles dateline, DoD systems green

By Linda D. Kozaryn, American Forces Press Service

WASHINGTON — As the clock struck midnight Dec. 31, the USS *Topeka*, a Los Angeles-class nuclear-powered attack submarine, straddled the equator and the international dateline 400 feet below the Pacific Ocean's surface.

Navy officials said half the 140-man crew said farewell to 1999 while the other half was a day behind. By virtue of their location, the crew "simultaneously experienced different hours, days, months, years, hemispheres and seasons," stated a U.S. Pacific Fleet Submarine Force press release.

Military men and women serving on ship and on shore around the world witnessed the beginning of the 21st century.

"We're all very gratified that throughout this day, for the most part, we've been able to see a world focused on celebrations

and not focused on crises," Pentagon spokesman P.J. Crowley said here Dec. 31. "That certainly is good news."

Military leaders at more than 500 U.S. bases in the United States and overseas reported up the chain to the National Command Center as the new year dawned at each location. At 2 p.m. and 9:30 p.m. EST, defense officials assured news reporters at the Pentagon that all was well. U.S. Pacific Command, followed by Central Command and European Command, had reported that Y2K had arrived without a hitch.

"Our systems, thus far, are free of anything we can attribute to Y2K," said RADM Robert F. Willard, head of the Joint Staff's Y2K Task Force. "We've been monitoring the state of the world very closely, particularly our systems as we rolled past Greenwich Mean Time at about 7 p.m. EST," he said.

"I'm happy to report that all the Department of Defense systems remain in 'green' status," Willard continued. "We have successfully rolled over long haul communications systems and our cryptologic systems all succeeded in rolling over correctly."

No power outages or other large anomalies had been reported by U.S. or officials in Russia, China and North Korea, the admiral said. "Currently, the world — as we've seen in observing the international briefings that have taken place — by and large, is reporting itself 'green.'"

No military installations had put contingency plans into effect due to any host nation system failures, he added. Precautions had been taken in some regions in anticipation of the rollover to make installation commands more self-sufficient.

Where to tune for info in bad weather

A number of information sources are being used to put out the word on any changes to installation operations due to adverse weather.

Employees are encouraged to listen for announcements concerning installation operations over radio stations listed in this article.

If you do not hear an announcement on one of the radio stations on the listing that means the installation is open. If you're still in doubt, you may want to check out a second station to be sure that is the situation.

Unless specific information is announced via radio, all employees will be expected to follow normal work/leave procedures.

In addition, WHTM-TV, Channel 27, Harrisburg, will be contacted and asked to run a message across the screen as

a means of providing closure information to the hearing-impaired.

In the event you are concerned about the status of the base and have not heard an announcement on either the radio or television, you may call 605-2000, which will be programmed during adverse weather situations to provide the latest status of the base. If you are outside the local calling area, you may call the toll-free number 1 (888) 427-6001.

If the base is open as usual, there will be a standard recording. In the event that there is a change to the status of the base, either a delay or a closing, the officer of the day will record a new message on 605-2000 to provide that information.

Employees using a telephone device for the deaf (TDD) may call 605-3474 to get

current status concerning installation operations. There will only be a message if normal operations have been altered. Otherwise, it's business as usual.

Adverse weather policy is spelled out in Almech Instruction 3006.1B.

WWW.Huh?: Buy Savings Bonds online

By Staff Sgt. Kathleen T. Rhem, USA, American Forces Press Service

WASHINGTON—Service members and others who dislike automatic payroll deductions or who find it hard to commit money for U.S. Savings

Bonds every month now have a way to buy that's just a mouse click way: online.

The site, www.savingsbonds.gov, is an easily navigable wealth of information. In addition to purchasing bonds, visitors can check current interest rates and learn about the types of bonds.

Two types of bonds are sold online: Series EE and I. The traditional Series EE Bonds sell for half their face value in six denominations from \$50 to \$1,000. Interest earnings rates are set every six months based on a formula involving five-year U.S. Treasury securities.

The new Series I Bonds sell at face value in five denominations from \$50 to \$500. Interest rates are also set semiannually but for inflation based on a special consumer price index.

The web site's first question is "What type of savings bonds do you want to buy?" Images and detailed descriptions of both types follow.

After choosing the type, you're asked to choose a denomination. A note informs customers that the maximum transaction is \$500 — \$1,000 face value in the case of a Series EE bond.

The next step is to choose one of three ownership options: single, co-owner and beneficiary.

In the single option, only the owner named on the bond may cash it. If the owner dies, the bond becomes part of the owner's estate.

In the co-owner option, either owner listed on the bond may cash it without the knowledge or approval of the other. If one dies, the other becomes the sole owner.

In the beneficiary option, only the owner named on the bond may cash it. When the owner dies, the beneficiary be-

comes the owner and can cash the bond.

The next step is called "Personalize It!" A handy button pops up asking, "Need help?" Personal information requested here includes owner's name and Social Security number, name of co-owner or beneficiary, and the mailing address the bonds will go to.

The site then displays an image of your bond. You're given the option of accepting the bond as it appears or correcting any information.

Once you're satisfied with your bond, it's time to proceed with checkout. But first you're asked to provide a daytime telephone number and e-mail address in case there's a need to contact you.

Customers can pay online using a Visa or MasterCard credit card. The site advises that all bonds are sent via first class mail and should arrive within two weeks. They can be sent to APO and FPO boxes but not regular overseas addresses.

Another helpful feature is an online calculator that helps individuals determine the current worth of their bonds. For instance, a \$50 Series EE bond purchased for \$25 in January 1992 is worth \$38.96 now and would fetch \$40.12 if redeemed in February 2000. These figures are presented in an easy-to-read, printable table.

A section of the site specifically for children, www.savingsbonds.gov/sav/savkids.htm, features games, information, a glossary, and information about the U.S. Savings Bonds 2000 National Student Poster Contest. The site also lists previous contest winners and shows their posters.

Questions about the site can be e-mailed to BuyBonds@bpd.treas.gov.

Free Classified Ads

The Mechanicsburg Supplier will publish free listings of personal items and services for sale by personnel of the naval and defense activities at Mechanicsburg, provided such items and services represent an incidental exchange between personnel on the installation and not business operations. Ads are limited to 15 words, one to an employee, and are due in NAVSUP Public Affairs Office, Code 09PA, Bldg. 309, prior to noon Friday, Jan. 14. All ads must be submitted on ad coupons and must be signed. Additionally, your signature below signifies that housing offered for sale is available on a nondiscriminatory basis. Extensions may be used on car pool ads only. For all others, use your home phone number. Ads are printed on a space available basis.

ITT highlights Flyers' action

The Information, Ticket and Tours (ITT) Office is heading to the MCI Center Sunday, Jan. 30, for Washington Capitals vs. Philadelphia Flyers action.

A visit to the National Sports Gallery is included along with 20 credits to play against the "pros" in interactive sports games there.

Transportation and ticket to the 1 p.m. game also are included in this \$37.50 per person offer.

Mummers Show

See the Mummers String Band Show of Shows at the First Union Spectrum Saturday, Feb. 26.

Cost of this trip is \$29.75 per person and includes roundtrip transportation, a Mummers Museum tour, and a \$20 Mummers Show ticket.

Auto & Boat Show

You get to see two shows for the price of one Jan. 26-30 with ITT's Pa. Auto and Boat Show ticket offer. Cost for both shows is \$5.50 for adults.

You save \$1.50/ticket. Purchase deadline is Jan. 14.

Sports Show

Save \$1.50 each on tickets to this year's Eastern Sports & Outdoor Show. The event will be held Feb. 5-13 at the Farm Show Complex.

Tickets cost \$8.50 for adults, \$3 for ages 6-12. Deadline is Jan. 14.

Office hours

The ITT Office in building 310 is open workdays between 11:30 a.m. and 1 p.m.

Or you may call Ext. 2266 to reach the ITT hot line.

Or check the office's bulletin board on e-mail under #People (NAVICP) and FMSO Information.

The ITT accepts Visa or MasterCard for purchases.

Job seekers

(Continued from Page 1)

are 8 a.m. to 4 p.m. Friday hours are 8 a.m. to 1 p.m. In some cases, these hours can be adjusted to meet an individual's need.

Employees are reminded that they are entitled to 40 hours of on-the-clock time to use the services of the Career Resource Center (CRC), attend job fairs, or go on job interviews.

Employees are asked to coordinate their time with their supervisors when using the center.

Judi Long, the director of the CRC, recommends that you make an initial appointment with a counselor at the center and prepare a resume.

Appointments are necessary at the center except for the use of resources in its library.

You can use the library on a walk-in basis to check current newspapers, job opportunity listings, and other types of literature concerning career opportunities. Some of the books and other materials may be borrowed for a reasonable period of time.

Periodically the center offers seminars in resume writing and visits by veterans' representatives. Watch for postings on electronic bulletin boards.

For further information or to make an appointment, call the Career Resource Center, Ext. 1338.

Concerts listed

The Navy Band will perform Saturday, Jan. 22, at 7:30 p.m. at the Fairfax High School Auditorium, 3500 Old Lee Hwy., Fairfax, Va.

The band's "Windjammers" woodwind quintet will perform Sunday, Jan. 23, at 1:30 p.m. at the White House Visitors Center, Washington, D.C.

The concerts are free.

For info call the Navy Band at (202) 433-2525.
